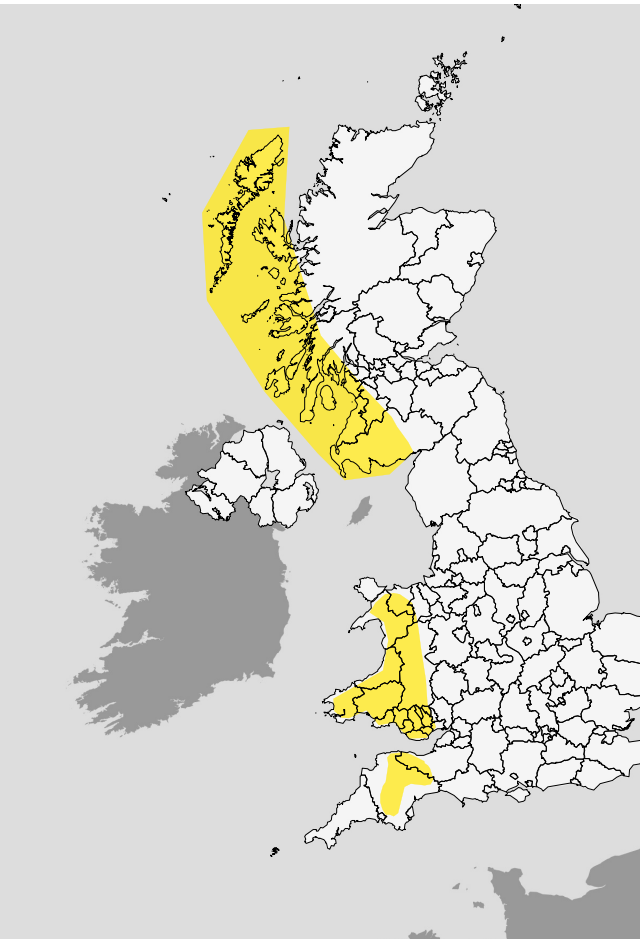
Yellow warning
Snow & Ice

Between
08:00 Sat 13 Feb 2021 and
22:00 Sat 13 Feb 2021



Snow and ice may cause some disruption.

What to expect

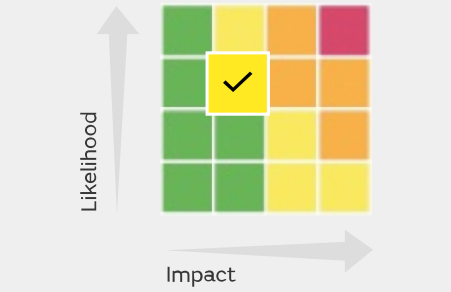
- Some roads and railways likely to be affected with longer journey times by road, bus and train services
- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

A band of rain, sleet and snow will move eastwards during Saturday.

Snow may fall to low levels for a time giving 1-2 cm in places. There is also the potential for 2-7 cm of fresh snow over hills, where strong and gusty winds will be an additional hazard and may lead to temporary blizzard conditions and drifting. The strong winds may cause some localised disruption to ferry services around western Scotland.

Rain may also fall onto frozen surfaces in a few places giving a risk of icy stretches on untreated surfaces.



Medium likelihood of low impacts
